

ROHAN RAJU CHAVAN

.NET Full Stack Developer

Pune, Maharashtra, India | rochavan1055@gmail.com | 8261858471 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven .NET Full Stack Developer with 1+ year of professional experience designing, developing, and deploying enterprise-grade web applications using C#, .NET Core, ASP.NET Core, ASP.NET MVC, React.js, and SQL Server. Skilled in building scalable RESTful APIs, ERP modules, real-time collaboration systems, and responsive user interfaces following Object-Oriented Programming (OOP) principles and MVC architecture. Experienced across the full Software Development Life Cycle (SDLC), from requirement analysis and database design to deployment and production support, using Agile/Scrum methodology. Strong foundation in database design, Entity Framework, authentication and authorization, and clean, maintainable coding practices. Seeking to leverage full stack development expertise to deliver high-quality, business-critical software solutions.

TECHNICAL SKILLS

Programming Languages: C#, JavaScript

Backend Technologies: .NET, .NET Core, ASP.NET MVC, ASP.NET Core, Web API, Entity Framework, Dapper, SignalR, RESTful API Development

Frontend Technologies: React.js, HTML5, CSS3, Bootstrap, JavaScript, jQuery, AJAX

Databases: SQL Server, MySQL, Stored Procedures, Database Design, Query Optimization

Architecture & Concepts: Object-Oriented Programming (OOP), MVC Architecture, Microservices-oriented design, CRUD Operations, Authentication & Authorization, Role-Based Access Control (RBAC), Data Structures & Algorithms, Design Patterns

Tools & Practices: Git, GitHub, Visual Studio, Postman, Agile/Scrum, Software Development Life Cycle (SDLC), Unit Testing, Debugging, Version Control

Soft Skills: Problem Solving, Communication, Team Collaboration, Time Management, Adaptability

PROFESSIONAL EXPERIENCE

Software Developer | Technosync Innovation

Dec 2025 – Present

- Develop and maintain scalable enterprise web applications using C#, ASP.NET Core, React.js, Entity Framework, and SQL Server.
- Design and implement RESTful APIs, business logic, and database-driven solutions supporting high-performance applications.
- Build responsive, reusable, and user-friendly interfaces using React.js, JavaScript, HTML5, CSS3, Bootstrap, jQuery, and AJAX.
- Design and optimize relational databases, SQL queries, stored procedures, and Entity Framework data access layers to improve application performance.
- Integrate frontend applications with backend services while ensuring secure data flow and seamless user experience.
- Participate in requirement analysis, application development, debugging, testing, deployment, and production support.
- Follow clean coding standards, Git version control, and Agile development practices to deliver maintainable software solutions.

.NET Full Stack Development Intern | Seven Mentor Pvt. Ltd.

Mar 2025 – Nov 2025

- Developed real-world web applications using .NET Core, C#, React.js, SQL Server, and REST APIs.
- Delivered end-to-end projects and freelance solutions, gaining hands-on experience in full stack development and client-centric software delivery.

PROJECTS

Jewellery Sync ERP — Manufacturing ERP Platform

Mar 2026 – Present

Technologies: .NET Core, MVC, C#, SQL Server, HTML, CSS, Bootstrap, JavaScript, jQuery, AJAX, REST API

- Developed a scalable enterprise ERP solution for manufacturing and business operations using ASP.NET Core and SQL Server.
- Designed and implemented secure REST APIs, business workflows, and optimized database solutions.
- Built responsive and reusable user interfaces and integrated frontend with backend services.
- Implemented payment integration, real-time dashboards, and automated reporting to improve operational efficiency.
- Collaborated across the full Software Development Life Cycle (SDLC), from requirements gathering to deployment and production support.

Task Sync — Team Collaboration & Task Management System

Dec 2025 – Feb 2026

Technologies: .NET Core, C#, React.js, SQL Server, Dapper, SignalR, REST API, JavaScript, Bootstrap, Git

- Developed a production-ready task management platform with secure Role-Based Access Control (RBAC).
- Built RESTful APIs and responsive React.js dashboards for task assignment, progress tracking, and reporting.
- Implemented real-time one-to-one and group chat using SignalR to enhance team collaboration.
- Developed a meeting scheduling module with integrated voice and video conferencing capability.
- Implemented authentication and authorization, optimized SQL queries, and delivered scalable, maintainable solutions following modern development best practices.

Gold Valuation System

Feb 2026 – Mar 2026

Technologies: .NET Core, C#, React.js, SQL Server, REST API, JavaScript, Bootstrap, Git

- Developed a scalable business application for customer management and gold valuation using C#, .NET Core, React.js, and SQL Server.
- Designed and implemented secure RESTful APIs, optimized database operations, and automated Excel bulk import for efficient data processing.
- Engineered accurate gold valuation logic based on purity, weight, loan amount, and configurable business rules.
- Built responsive user interfaces and optimized application performance through efficient SQL queries and clean, maintainable architecture.

EDUCATION

Master of Science (Computer Science)

2023 – 2025

G H Raison College, Pune — CGPA: 7.6

Bachelor of Science (Computer Science)

2020 – 2023

Padmashri Vikhe Patil College, Pravaranagar — CGPA: 7.0

CERTIFICATIONS

- Full Stack .NET Development — Seven Mentor and Training Pvt. Ltd.
- React Development — Seven Mentor and Training Pvt. Ltd.
