PROFILE

Full Stack Developer with 1 year of professional experience in developing enterprise web applications using C#, .NET Core, React.js, and SQL Server. Experienced in building ERP modules, REST APIs, and responsive web applications with a strong understanding of database design and business workflows. Passionate about writing clean, scalable code and delivering high-quality software solutions.

SKILLS

Backend: C#, .NET, .NET Core, ASP.NET MVC, ASP.NET Core, Web API, Entity Framework

Frontend: React.js, HTML5, CSS3, Bootstrap, JavaScript, jQuery, AJAX

Database: SQL Server, MySQL

Tools: Git, GitHub, Visual Studio, Postman, Agile/Scrum

Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, RESTful APIs, MVC Architecture, CRUD Operations, Authentication & Authorization, Database Design

Soft Skills: Problem Solving, Communication, Team Collaboration, Time Management, Adaptability

PROFESSIONAL EXPERIENCE

Software Developer

12/2025 – Present

Technosync Innovation

- Developed and maintained scalable enterprise web applications using **C#, ASP.NET Core, React.js, Entity Framework, and SQL Server**.
- Designed and implemented **RESTful APIs**, business logic, and database-driven solutions to support high-performance applications.
- Built responsive, reusable, and user-friendly interfaces using **React.js, JavaScript, HTML5, CSS3, Bootstrap, jQuery, and AJAX**.
- Designed and optimized relational databases, SQL queries, stored procedures, and Entity Framework data access for improved performance.
- Integrated frontend applications with backend services while ensuring secure data flow and seamless user experience.
- Participated in requirement analysis, application development, debugging, testing, deployment, and production support.
- Followed clean coding standards, version control using **Git**, and Agile development practices to deliver maintainable software solutions.

Internship

03/2025 – 11/2025

Seven Mentor Pvt. Ltd

Shivajinagar, Pune

- Completed a .NET Full Stack Development internship where I developed real-world web applications using .NET Core, C#, React.js, SQL Server, and REST APIs. Delivered end-to-end projects and also worked on freelance solutions, gaining hands-on experience in full-stack development and client-focused software delivery.

PROJECTS

Jewellery Sync ERP - Manufacturing ERP & Pro

03/2026 – Present

Role: Full Stack Developer

Technologies: .NET Core, MVC, C#, SQL Server, HTML, CSS, Bootstrap, JavaScript, jQuery, AJAX, REST API

- Developed a scalable enterprise ERP solution for manufacturing and business operations using ASP.NET Core and SQL Server.

- Designed and implemented secure REST APIs, business workflows, and optimized database solutions.
- Built responsive, reusable user interfaces and integrated frontend with backend services.
- Implemented payment integration, real-time dashboards, and automated reporting to improve operational efficiency.
- Collaborated throughout the **Software Development Life Cycle (SDLC)**, from requirements gathering to deployment and production support.

Task Sync – Team Collaboration & Task Management System

12/2025 – 02/2026

Role: Full Stack Developer
Technologies: .NET Core, C#, React.js, SQL Server, Dapper, SignalR, REST API, JavaScript, Bootstrap, Git

- Developed a real-time task management platform with secure role-based access control (RBAC).
- Built RESTful APIs and responsive React.js dashboards for task assignment, progress tracking, and reporting.
- Implemented real-time one-to-one and group chat using SignalR to enhance team collaboration.
- Developed a meeting scheduling module with integrated voice and video conferencing to enhance team collaboration.
- Implemented authentication, optimized SQL queries, and delivered scalable, maintainable solutions following modern software development best practices.

Gold Valuation System

02/2026 – 03/2026

Role: Full Stack Developer
Technologies: .NET Core, C#, React.js, SQL Server, REST API, JavaScript, Bootstrap, Git

- Developed a scalable business application for customer management and gold valuation using C#, ASP.NET Core, React.js, and SQL Server.
- Designed and implemented secure RESTful APIs, optimized database operations, and automated Excel bulk import for efficient data processing.
- Engineered accurate gold valuation logic based on purity, weight, loan amount, and configurable business rules.
- Built responsive user interfaces and optimized application performance through efficient SQL queries and clean, maintainable architecture.

EDUCATION

Master of Science(Computer Science)
G H Rasoni College Pune
CGPA: 7.6

2023 – 2025

Bachelor of Science(Computer Science)
Padmashri Vikhe Patil College Pravara nagar
CGPA: 7.0

2020 – 2023

CERTIFICATES

React Development: SevenMentor and Training Pvt Ltd
Full Stack .NET Development: SevenMentor and Training Pvt Ltd.
